CONSTRUCT 2018 Issues Call for Sessions

December 20, 2017 - Dallas, Texas

CONSTRUCT 2018 invites application submissions to present at the 2018 event, taking place on October 3-5 at the Long Beach Convention and Entertainment Center in Long Beach, CA. CONSTRUCT welcomes compelling proposals that address a wide range of topics relevant to the commercial building team and those who design, build, specify, engineer, renovate and operate in the built environment.

With over 40 accredited sessions and non-conflicting exhibit hall hours, the education program is an integral part of the CONSTRUCT event experience for specifiers, architects, designers, product reps, contractors, engineers, project managers, and other industry professionals.

Seeking dynamic speakers with a firm grasp of technical issues, including building scientists, researchers, architects, specifiers, contractors, owners and code experts, sessions are 60 – 120 minutes in length and should contain timely, practical information and solutions that can be immediately implemented in the workplace.

“Our goal for 2018 is to provide unique and engaging educational experiences utilizing a combination of learning formats, from case studies and panel discussions to small group discussions and hands-on learning. Additionally, our participants are hungry for intermediate to expert level content that they can’t get anywhere else said Jennifer Hughes, Informa Education Manager. We encourage dynamic professionals from all areas of the industry who can offer solution-based content, to submit a proposal.”

Topic submissions should focus on applications-oriented, real world, problem-solving topics and be free of promotional materials to sell a product or service.

The multi-track educational program includes technical and design oriented sessions, as well as business-related sessions including project management and legal topics.
The deadline for submitting a proposal is January 23, 2018. Session proposals should be submitted via the automated submission form at https://www.constructshow.com/en/education/speaking-opportunities.html. Questions should be directed to Jennifer Hughes, Informa Education Manager, at Jennifer.Hughes@informa.com or 972.536.6388.
